EXPERIENCE

2019-Current Freelance Product Designer

2021 - Current | Palo Alto Networks | Freelance Product Designer

Working as part of the UX team on ongoing tasks and features. Within the team I work on maintaining the integrity of the design system across the product. Work directly with dev teams and follow through the projects from start to finish.

2021-Current | Code Monkey | Freelance Product Designer

Working directly with the CTO and Product manager, maintaining and developing the product and new features.
Seeing the project through beginning to end, working directly with the development team.
In charge of moving the team to work in figma, building and maintaining a design system and work methodology.

2019 - 2022 | ED&U Studio | Freelance Product Designer

Worked in a team of designers and product managers on long term projects. Creating design flows, prototypes, and deliverables for dev user testing on physical products.

2018 - 2019 | Weissbeerger | UX/UI Designer

Developing features for a new web product maintaining existing mobile and web dashboards Problem solving | Detailed design prototyping and Concept development

2016 - 2018 | NICE Systems | UI Designer

Concept development | detailed design | high fidelity wireframes UI Design | Supporting the Recording LOB in several projects

2012 - 2016 | Freelancer | UI Designer & Creative Director

Worked with early stage startups and a variety of corporate comapnies. Responsibilities included product development, persona profiling, research, wire-framing, prototyping, pixel perfect UI designs and brand development.
